Bilateral Meetings

• Tuesday (09:00 am - 01:30 pm)

Description

Chengdu Fortune Myriad Diamond Nano-Tech Co., Ltd. (FMD), which is located at High-Tech Zone, Chengdu, is a professional high-tech enterprise focused on production of micro- and nanodiamond powder, and relevant application research and technical promotion. FMD is taking a leading position in the world in nanodiamond synthesizing technique and nanoscaled particles dispersion technology, and R&D group and industry base of FMD are of the first-class in the field. FMD nanodiamond products contain several series such as nanocrystallite, lubricant additive, ultraprecise polishing slurry, grinding paste and electroplating/co-plating additive, and FMD established a good relationship with its worldwide partners and customers including National Nanocarbon Institute (Japan), Saint-Gobain (France), Carbodeon Ltd Oy (Finland) and TDK (Japan). FMD is now devoting to the construction of a leading manufacturing and technology platform, and therewith to promote the exploration of product application and the progress of nanodiamond industry. **Organization Type SMEs** Country China Citv

Technological request

Technical and business cooperation on nanodiamond

1, Downstream users of nano-diamond, seeking technical and business cooperation.

- 2, Users in the field of lubrication application
- 3, Users in the surface modification of materials application
- 4, Users in the field of organic synthetic materials application
- 5, Seeking businesses with technical might to undertake large-scale and industrialized application of nanodiamond for

the promotion for joint research and development of applications of downstream products.

200000000

300000000

Cooperation Offered

- 1. Investment/Financing
- 2. Sales / Distribution
- 3. Manufacturing agreement
- 4. License agreement
- 5. Technical co-operation
