Description

Intrado promotes Italian Know-how, Italian investments and Made In Italy in the Chinese market through the offer of high level services such as: company check up, corporate strategy definition, market research and other professional service and thanks to its strong connections both with the entrepreneurial class and the local Chinese Government Agencies. Intrado has successfully closed partnerships and joint ventures agreements between Italian and Chinese companies, particularly referring to the fields of aerospace, energy and environment, logistics, fashion and food. Intrado provides professional solutions and analysis through a prior knowledge of the customer, any intervention is tailored on the specific contest using a "personalized approach" for large, medium and small sized companies, for institutions and associations. Its mission is to assist companies with a "global" outlook: from the definition of the best internationalization strategies to the realization of feasibility studies, from the organization of international missions focused on specific sectors, to the creation of high level synergies with local Government Agencies.
